Product Intelligence

GN-Legend Bat-LB - One Size: Technical Details, Specifications, and Features ## Overview The **GN-Legend Bat-LB** represents the pinnacle of Gray-Nicolls' Australian-made range. This cricket bat is expertly crafted to deliver exceptional performance for professional and elite club cricketers, particularly those who favor aggressive stroke-play and commanding shot-making through the field. ## Material Composition The bat is constructed from **Grade 1+ Australian-made English willow**, a premium wood material renowned for superior performance and durability. This high-quality willow ensures that the bat maintains its structural integrity and performance characteristics throughout extended use. ## Key Design Features ### Blade Characteristics The GN-Legend Bat-LB incorporates several distinctive design elements that enhance its performance: - **Massive Edges**: The blade features massive edges that create a larger hitting zone and provide greater forgiveness on off-center strikes, allowing players to maintain power even on imperfect contact. - **Pronounced Bow**: The pronounced bow contributes to an increased sweet spot area and improved forgiveness, making the bat more forgiving across a wider striking zone. - **Towering Spine**: A towering spine design enables maximum power transfer, efficiently channeling energy through the ball for explosive shot-making. This structural feature is particularly effective for players who dominate the bottom hand in their batting technique. ### Sweet Spot Positioning The sweet spot is positioned **mid-to-low on the blade**, offering natural timing for driving shots. This placement makes the bat ideal for players who favor aggressive stroke-play, particularly through the V (the area between mid-wicket and mid-off on the field). ### Handle and Grip Design - **Round Handle**: The bat features a round handle that provides comfortable control during play, reducing fatigue during extended batting sessions. - **Octopus Grip**: A premium octopus grip is included with the bat, offering enhanced comfort and superior control through all stages of the batting stroke. ## Technical Specifications | Specification | Details | ---|---| | **Brand** | Gray-Nicolls | | **Category** | Cricket Bats | | **Willow Grade** | Grade 1+ Australian-made English willow | | **Size Designation** | Long Blade | | **SKU** | 11438-LB | | **Price** | 2199.99 AUD | | **Availability** | In Stock | ## Ideal User Profile The GN-Legend Bat-LB is specifically designed for: - **Professional and elite club cricketers** seeking premium performance equipment - **Aggressive stroke-makers** who prioritize power and attacking play - **Bottom-hand dominant players** who love driving through the V (mid-wicket to mid-off) - **Players** seeking a balance of power, control, and performance in a premium-grade bat ## Pre-Use Preparation The bat requires **careful knocking in before match use** to prepare the willow and optimize its performance characteristics. This preparatory step ensures the bat performs at its peak during competitive play. ### References - [1] GN-Legend Bat-LB - One Size
